TOWN WARRANT.

State of New Hampshire.

[L. s.] To the inhabitants of the town of Sunapee, qualified to vote in town affairs:—

You are hereby notified to meet at the I. O. O. F. Banquet Hall in said town on the second Tuesday of March next, at ten of the clock in the forenoon, to act upon the following subjects:—

1. To choose a Town Clerk for the year ensuing.
2. To hear the reports of the Town Treasurer, board of Selectmen of the town and reports of Water Commissioners, Auditors, Agents and Committees, or other officers heretofore chosen or appointed, and pass any vote relating thereto.
3. To choose three Selectmen, Town Treasurer, and Road Agents not to exceed three.
4. To choose a Collector of taxes and all other necessary town officers and Agents for the year ensuing.
5. To see what sum of money the town will raise to pay outstanding debts, and interest on its Water Bonds.
6. To see what sum of money the town will raise to defray town charges, the year ensuing.
7. To see what sum of money the town will raise to repair highways, the year ensuing.
8. To see what sum of money the town will raise and appropriate for the maintenance of its public Library.
9. To see what sum of money the town will raise to pay for Electric Lights, the year ensuing.

10. To see if the town will vote to raise three hundred dollars towards building the shore road now laid out by the town on Flander's shore to meet the appropriation of the state of New Hampshire, for the same.

11. To see what action the town will take in regard to a Liquor Agent.

12. To see if the town will vote to accept the Bequest of Peyton R. Gardner for seventy five (\$75) dollars, the income thereof at $3\frac{1}{2}$ per cent to be used in keeping in repair and restoration the the burial lots of David Gardner, John Y. Gardner and William Gardner and the memorials therein, in the Village Cemetery in Sunapee.

13. To see if the town will vote to raise by taxation or otherwise and appropriate the same to pay the Water Commissioners the amount (\$1,564 93) expended by them in excess of the \$25,000 00 appropriated, by putting in lines of water pipes, not included in the original survey.

14. To see if the town will authorize its Water Commissioners to extend its water service to any parties desirous of using the same, where the revenue will be at least 6 per cent on its amount expended.

15. To see if the town will authorize its Selectmen to hire the necessary amount of money to carry into effect the foregoing article (Art. 14.)

16. To see what action the town will take in regard to securing a room or building in which to hold the annual and other town meetings.

17. To see if the town will vote to have the assessed valuation of the real estate of the town printed for distribution to tax payers.

18. To see if the town will vote to accept and adopt the names given to our various streets, at an informal meeting of the citizens of Sunapee, held in I. O. O. F. Hall Saturday evening Nov. 16, 1901, which were as follows:

Beginning at Post Office as "Post Office Square."

From Post Office Square to Depot—"Main St."

From Post Office Square to opposite Ben Merè Inn—

"East Main St."

From Post Office Square, South—"High Street."

From Post Office Square, North by George Dodge's—

"Central Street."

From Pulp Mill, following river to Sunapee Lake—

"River St."

From High St. North of N. P. Baker's to River St.—

"Cross St."

From High St. East and North through Bartlett & Rowell's
property to River St.—"Maple Avenue."

From Ben Mere Inn to Burkhaven—"Granite St."

From Ben Mere Inn on East shore of Lake—"Lake Avenue."

From East Main St. on West shore of Lake—"Garnet St."

From Main St. North, by School House, to George's Mills—

"School St."

From School St. at foot of Rogers Hill to Lake—

"Worthen St."

From Main St. North to A. D. Felch's—"Pleasant Place."

From Main St. North by Solon Abbott's—"Myrtle St."

From Main St. South near Stone Sheds—"Smith Court."

From Main St. South near Rake Factory—"Mill Court."

From Main St. South near Russell's store—"Winn Road."

From Main St. North near Union Church—"North St."

19. To transact all other business which may legally come
before said meeting.

Given under our hands and seal this 24th day of February,
1902.

JOHN M. COOPER,	} Selectmen
GEORGE E. GARDNER,	
CHARLES O. BAILEY,

C. C. MESSER, Road Agent.

Report of the Board of Water Commissioners.

We, the Water Commissioners of Sunapee submit below a report showing what has been accomplished during the year past toward the construction of our water system in this village and at George's Mills.

At the beginning we were all inexperienced, but we tried as best we could to inform ourselves on the various lines of procedure, by interviewing many parties who were experienced in this line.

We got about the work in the Spring as soon as the ground would permit. We decided that it was for the best interest of the town to do the work by contract, and after much deliberation, we finally closed a deal with C. N. Taylor of Wellesley, Mass., for

laying all the water-mains, setting hydrants, and building reservoir.

We also secured the services of Geo. P. Hadley, of Goffstown, N. H., as Civil Engineer, to lay out and look after the work, which capacity he filled in a very satisfactory manner.

When work began it progressed as rapidly as could be expected through Sunapee soil and Sunapee rock. It was surely a hard undertaking, but before September the task was practically completed, and we have reason to believe that we have as good a water system for a village of our size as can be found anywhere.

We feel now that we are safely through the first Winter, and a hard one to, without a freeze or mishap of any kind, which we consider very favorable, as this is surely the hardest test we shall have.

We had some fears of freezing where our pipes cross the bridges, but we boxed them with dead air spaces, and outside of this a packing of mineral wool; we also placed a watering tub at the lower extremity of the system, with a good amount of water running, and this, with other precautions have assured the present result.

Our reservoir is sixty feet in diameter and fifteen feet deep, built of the best Portland Cement and crushed stone. This necessitated a large expense in getting our stone crushing plant on to the ground and taking it away again. We could have built a rubble reservoir for much less money, but from all we could learn they are very apt to leak and continually cause trouble, so we decided that the best was the cheapest in the end.

When we got fairly into the work we plainly saw that unless our original survey was enlarged, we should be called upon again this Spring to put in other lines of piping in order to make our system a universal benefit. We also saw that it was from these side lines that we were to receive our largest percentage of revenue, and that this work could be done very much cheaper then, while everything was on the ground to do with, than it could to

make another job of it; and aside from this it would necessitate our streets being in awful condition for two years instead of one.

These facts were all so prominent that we decided to call an informal meeting of our citizens, which we did, and presented the situation, which was discussed and a unanimous expression given that to proceed and put in these side lines and make a complete job would be a very wise thing to do.

With this encouragement we proceeded and have put the system in its present condition.

We of course have over-run our appropriation, but the whole expense comes within less than \$100.00 of our estimate before the informal meeting.

We made some changes in the original survey which saved the town many dollars, and we know of no one who is not pleased with the system as it stands to-day.

We have twenty-six hydrants here and five at the Mills, which give excellent fire protections, and our Insurance Commissioners are so well pleased with existing conditions that they have reduced the rate of insurance on our residential property $33\frac{1}{3}$ per cent, and a varying reduction on all other property.

The best aspect of the whole situation is its financial prospect. Reason combined with figures will make our actual income for the year 1902, at a conservative estimate as follows:-

Saving on Insurance	\$250 00	
Taxes on property which would not be here, had it not been for our water system	100 00	
(This will be largely increased next year.)		
Cash for water rentals	875 00	
		<hr/>
Extra for 1902	\$1,225 00	
Interest on bonds	\$750 00	
Expense of maintainance (estimated)	200 00	
Interest on excess expenditure	50 00	
Net income		\$225 00

We know the above estimate is a safe one, and that our revenue will increase rapidly in the next two or three years, so that really our water system will be a paying investment from the beginning.

Below we give the cost complete and in subdivisions, thinking this division may be interesting to some.

RECAPITULATION.

Auditor's Report.

I have carefully examined the accounts of the Treasurer and School Board of the town school district and find the accounts of the Treasurer correctly cast and well vouched.

The accounts of the School Board were not well vouched.

J. P. SMITH, Auditor.

Sunapee, N. H., Feb. 24, 1902.

Report of School Board.

Your schools during the past year have been generally successful, some of them exceptionally so.

We regret that they are not all so; we fear all parents do not realize the extremely delicate and difficult position of the teacher; and that a successful school can not be secured without their hearty co-operation.

On account of the moving of No. 8 school-house extra expenses were incurred in fitting it for fall and winter use.

We trust however that our spring schools will open in the new building, should they do so, the opportunity ought to be improved to revise, regrade, and further systemize our schools and school work.

Now that by the State we are compelled to pay High School tuition out of town, or provide such facilities at home; we should carefully consider whether it is better to send some three hundred dollars yearly out of the town for the benefit of a few, or invest a like sum in a High School at home for the benefit of all.

We should also carefully consider whether it is wise to retain and keep in repair unused school property, or dispose of it and use the proceeds for the benefit of our schools.

Trusting that we may wisely meet and successfully solve the perplexing school problems that now present themselves, we seek your earnest sympathy and co-operation.

MARILLA M. BAKER,	} School Board

*Two terms. †Whole year.

Report of Building Committee.

Pursuant to the vote of the District, May 1, to erect a new school building:

Your Committee, after conferring with various contractors and builders, awarded the contract to Geo. T. Stockwell for \$4,835 00.

The District having voted to accept offer of E. R. Boyce to deed it a lot of land on condition that the District remove thereto the old No. 8 building, your Committee removed it and the shed thereto at an expense of \$130 36.

At a school meeting Dec. 7, your Committee recommended that \$2,000 00 be hired to furnish, plumb and heat the new school building, instead the District voted to assess a tax of \$1,300 00; \$500 00 to furnish, \$800 00 to plumb and heat.

In accordance with this vote, the furniture has been bought, and will, when a few matters connected with freight, and broken parts are adjusted, probably not exceed the appropriation.

The plumbing has been arranged for an expense not exceeding \$400 00.

The heating is being investigated, a decision as to system to be employed, not having been reached.

We hope however to have the building ready for the use of the spring schools.

Our expenditures to date Feb. 15, have been \$4,294 89.

E. R. BOYCE,	}	Building Committee on New School Building.

Report of Board of Health.

Sunapee, N. H., February 15, 1902.

We are glad to report that the year has closed with no record of any epidemic or contagious disease of a dangerous character, that have been transmitted one to the other. There has been reported but one case of typhoid fever, and that not fatal.

There has been but few reasonable complaints entered and those have received our immediate attention.

The sanitary conditions on the Lake shore are in as good shape as could be expected and we believe it is the purpose, and desire of the cottage owners to keep them so.

We congratulate the Town on its excellent water system and trust that its advent will encourage those in our village who have had poorly regulated sanitary conditions, necessarily so but not now, to conduct their sewerage into the river.

Respectfully submitted,

A. D. FELCH,	} Board of Health.
